PLEASANT VALLEY

Grower's Guide

Garden Center - 337.3118 | Flower Shoppe - 337.6632 | Golf Course - 337.2622

A touch of Spring??

By now the flower buds have been set on trees and shrubs. If you would like an early touch of spring, cut some branches (1 to 3 feet long) from your forsythias, dwarf lilacs, flowering crabs, any fruit tree or spring flowering shrub. At the base of the branch, take a hammer and "gently" smash the stem. Then place the branches in a vase of fresh water and place in a sunlit spot. Keep the water fresh and in a week or two you should see spring flowers and leaves. Enjoy!!

For the Birds??

Even though it isn't as wintery as some years...our feathered friends are still looking for some extra care and food. They are use to finding food in their feeders. Pleasant Valley carries a complete supply in bulk and pre-packaged safflower, sunflower (oil, hulled or blended), thistle, peanuts, suet, nectar and wild bird food. We also carry feeders, bath heaters, baffles, Sheppard's hooks and bird houses...Great Selection—Every Day.
